## PERSONAL MENTION

J. C. Yates left last week for Glasgow, from there he will take his two daughters, Lucile and Mabel to the World's Fair. He is going to put up a White Steel Gate at each entrance to the grounds—Lebanon Enterprise.

Miss Alexander Cheering, J. F. Patterson, Miss Sallie Williams, Annie Willis and Doris Young left yesterday morning for the World's Fair.

Rev. Thos. Hadley and wife; Revs. Frank and Jo Turner, A. R. Blakey and M. A. Antle, all delegates to the Louisville Conference of United Brethren, were in Columbia yesterday on their return.

Miss Mattie Royce has sent to this office a bunch of ripe blackberries which she picked yesterday. It is rare to see the delicious fruit growing late in the season.

Mr. B. L. Walker Dead.

On Friday last, at 9 o'clock, p. m., at his home at Nell, this county, Wm. L. Walker passed away at the age of 79 years. He had been in declining health for twelve months. He died peacefully surrounded by his wife and children, all of whom were present when death came. He was first married near sixty years ago to Lemira Kinnaird, who died ten years ago. He afterwards married Mrs. Sallie Caldwell, the widow of George M. Caldwell, with whom he lived until his death. Mr. Walker was for a long lifetime one of Adair county's most active citizens. He began his life with but little education, but by good estate and gave a good home to all his children, who he desired to settle around him, and they law form a large and prosperous community around where he had settled in life. A more kind-hearted, hospitable man the county never had. He was always glad to see his friends and nothing was too good for them. His great hospitality, all other persons will attest. He was devoted to his friends and kind to his neighbors, and for many years was in all things the leader in his community. He was a member of the Baptist Church and had been for many years. At his death he had living eight children, 12 grandchildren, all of whom will greatly miss him.

In his last moments he spoke of the great kindness and love shown him by his wife and children in his last days. A useful citizen, a kind neighbor, an indulgent father and husband has gone to his reward.

The funeral services were conducted by Rev. W. H. C. Sandig, assisted by his pastor, Rev. Levi A. Large concourse of relatives and friends attended the last sad rites.

UP-TO-DATE.

The world was all behind before we struck a winning ball, but now we are all first at last. Business we're up-to-date.

Improvements made in former times are all no good of late. For great inventions must be new and fashioned up-to-date.

A billion dollar Congress guides our noble ship of State. They're going to harness her boiler soon or run her up-to-date.

For corporations and the trusts they freely legislate. While labor bears the burden of taxation up-to-date.

Of higher criticism, too, our modern preachers prate. They want a mandate gospel plan with science up-to-date.

And should they be permitted when they reach the pearly gate. They pause to ask St. Peter there if things are up-to-date.

On consultation Doctors meet. Some defer to locate. Before they take their vitals out And carve them up-to-date.

The progress of the present age Has grown so very great. That all our greatest evils are The nearest up-to-date.

If minus fads and fashions now You're left as sure as fate. And to be in the fashion, you Must have the up-to-date.

### ANNOUNCEMENTS

For Circuit Judge.

We are authorized to announce that the Hon. J. H. THURMAN, of Washington, D. C., is a candidate for Circuit Judge in the district comprising the counties of Green, Taylor, Madison and Washington, subject to the action of the Democratic party.

The apathy manifested upon both sides in this campaign is something no one seems to understand. In Louisville, last week, a representative of The News talked to a number of politicians, finding them all in the dark and with no definite idea as to the meaning of the still hunt. It was the opinion of some that Indiana and New York would both go Democratic while others were of a contrary opinion. One leading Republican, well-known here, said that the result in Indiana was very doubtful.

The most enthusiastic political meeting we ever attended was at Phoenix Hill, Louisville, last Thursday night where Hon. W. J. Bryan spoke to 15,000 people. Mr. Bryan is the most captivating man now before the American people and is making as gallant a fight for Parker and Davis as he made for himself while before the country as the Democratic candidate for the Presidency.

Remember that Geo. E. Stone is the Democratic candidate for Congress in this district. He is an able man and would make a Representative for whom the people would feel proud. Vote for him.

The loss of lives in the ten days' battles before Mukden is enormous. The latest dispatch says that eighty thousand soldiers fell. There has been no fighting for the last few days, but renewed hostilities are daily expected with the information that the next engagement will be the decisive battle. It seems that during the long fighting before Mukden the Japanese still claim that they will eventually take Port Arthur, while the Russians claim that it can not be taken. When peace has been declared history will record one of the world's bloodiest wars.

The basis of success in political contests is the efficiency and earnestness of the precinct organizations. When these faithful workers are enthusiastic the way is clear for victory. The Campaign Committee is particularly gratified at the reports from the precinct Chairmen and their sub Committees. There is an increase in interest throughout the State that gives assurance of an old time majority for Parker and Davis.

In Kentucky Tom Watson has been posing as the friend of the farmer and the workman. In New York State, he traveled on special trains, no doubt paid for by the Republican Campaign committee. There never was a more shameless political bargain than that between Watson and the Republicans. It is not possible that he can turn the Populists of this country, bound hand and foot, over to Roosevelt.

Kentucky stands far up in the list in the list of awards made to the exhibitors of the Louisiana Purchase Exposition, having a total of 136, divided as follows: Six grand prizes, thirty-five gold medals, fifty-three silver medals, seventy-two bronze medals. This record, too, is made in the face of the fact that there were only three Kentuckians on the juries of awards.

About one thousand Masons attended the session of the Masonic Grand Lodge last week. Owen D. Thomas, of Lebanon, the retiring Grand Master, delivered an able address, commenting on the work of Kentucky Masons during the past year. The reports showed there were 799 live lodges in the State.

The registration in Louisville shows a clear Democratic plurality of over 8,000. Giving the Republicans two-thirds of the independent vote—and they will not get one-third of them—and the Democrats would still have a safe margin of 2,500 votes.

It is only thirteen days until the election and not a speech has been made in Adair county by representatives of either side, excepting one.

It is only a few days until the election and every Democrat should use his utmost endeavors to get out the full vote.

Hon. Wood Dunlap, of Lexington, spoke to a small audience of Republicans at this place last Friday.

The race issue does not disturb the North because the negro population there is not sufficiently large to menace its peace or prosperity. Republican politicians from the President down can "open the door of opportunity" to the black man because there is small danger that he will walk through that door and assault his wife or daughters, but in the South a different condition confronts the white man. He has to deal with a horde of idle, vicious negroes, who band together for his destruction, or waylay the women of his family and subject them to indignities worse than death. The recognition that Roosevelt gave to Booker Washington, his forcing negro Collectors and Post-masters on the people of the South, his constant preachments on the subject of race prejudices, has stirred these ignorant masses, until their insolence has grown unbearable.

Former President Grover Cleveland delivered a great speech in favor of Parker and Davis in New York City last Friday night. When he entered the hall he was given an ovation that lasted seven minutes. He went after the Republican Administration with a "hot rod," showing that its claims for the country's good were fallacies and full of dead men's bones. At the conclusion of Mr. Cleveland, Hon. John G. Carlisle made a ringing speech along the same line. The Democrats of New York are alive, and feel sure that the State will be carried for Parker and Davis.

Every storekeeper, gauger, postmaster, and collector in Kentucky has been held up by the Republican Campaign Committee, but the big corruption fund of four and eight years ago is missing. That was contributed by the Trusts in an effort to debauch Kentucky. This year the stream of boodle has been directed to other States where it is a better chance to invest it profitably. This State is so safely Democratic that it has been deserted by the National Committee.

The Republicans are trying to make it appear that there is no interest in the coming election with the hope that many Democrats will remain at home on election day. Democrats should not be deceived. Be at the polls early and stamp under the roster.

It is the duty of every Democrat to vote and not one should fail to be at the polls on the day of election.

FROM MR. BRYAN'S PAPER.

Geo. Ad. says Indiana will give a republican majority of 40,000. Sad how soon these great humors run out.

The trusts are going to experience trouble in selling the public another job lot of life preservers stuffed with old iron.

Senator Spooner's denial would have been much stronger if it had not been quite so strong an appeal for sympathy.

The gentlemen who complain that presidential campaigns must be business are finding difficulty in securing the proof of this fact.

It will strike a good many to the fact that Senator Spooner is offering to prove his honesty by not making any more of the facts.

That ominous rattle from somewhere in Ohio is indication that General Grant is getting his prediction machine oiled up.

Chairman C. Taylor is of the decided opinion that Andrew Carnegie is offering some stronger arguments in favor of the republican ticket.

The Wisconsin and New York situations call for a lot of soft speaking on the part of the president, but big sticking is noticeable by its absence.

The banks report a slow demand for money. Men never rush hurriedly to a bank to borrow money. They hesitate and approach with diffidence.

The LaFollette decision and the Stettin expose came so close together that Senator Spooner is excusable for believing that someone has it in for him.

The New York Tribune is now earnestly striving to convince the supreme court that it knows much less than a President Roosevelt about common law.

Mr. Rockefeller has about arrived at the stage where he can prove that he earns his money by pointing to the articles written by Mr. Lawson and Miss Tarbell.

Gov. Wright talks long about what the U. S. has done for the Philippines. But the U. S. has been guilty of many sins of omission, also.

Republican leaders are explaining by saying that Mr. Roosevelt wrote those books long years before he ever entertained an idea of running for the presidency.

The following gives a full explanation of the water sent by J. C. Morrison, Campbellville, Taylor county, Ky., July 18, 1901. The sample was received July 21, 1901, in put bottle.

The water smelled strongly of hydrogen sulphide and there was a deposit of sulphur in the bottle.

ANALYSIS.

The water contains 320.9 grains of solid matter to the gallon, composed mainly of chlorides and sulphates of sodium, calcium and magnesium, some calcium carbonate and traces of iron, potassium and lithium compounds and a trace of borates. The water contained also a very considerable quantity of hydrogen sulphide. Is very good saline sulphur water.

PULASKI DEMOCRATS.

It is time to be wise, determined and faithful. The bickering and strife of Republican factions may portend no good to the little band of fifteen hundred to two thousand and tried Democrats of Pulaski. It is not desirable, N. & one principle of Democracy can any Democrat afford to surrender to win the approval of any number of men not once can any Democrat in Pulaski afford to waver in his fealty to the basic principles upon which his party rests.

In assuming the cause of any cause of our party let it be distinctly understood that the Democratic with every Democrat is that he is the enemy of vice and sound Democracy. This is a union of strength and truth that brings victory worthy of a just cause.

Gen. E. Stone is presented to the voters of Pulaski as a "Democrat of Democrats," desiring no man or a trusting no man and with intention to wrong no man, absolutely without fear or bluish in reputation and character.

It will be equivalent to the commission of an unpardonable sin for any Democrat in the county to fail to go to the polls and vote for Stone.

It will be to the everlasting credit of any Republican who desires to complement such a character, or who wants to register his condemnation of political dishonesty and arrogant bossism in his own party, to vote for Stone.

In the announcement of Judge Stone published throughout the district the assurance that if elected to Congress he will use the honor to the votes of Republicans and Independents as well as the Democrats, with the pledge to be in the event, the official representative of the whole people representing the district—not a mere faction of a party rent and torn by internal contentions and unwholesome ambitions.

The purpose of announcing Judge Stone for a speech at Somerset last Saturday was that he might make this pledge to those who humored him with their presence and attention. He was eventually prevented from making the opening speech of a short campaign on that day, and his health is such that he may not be able to make or fulfill any other appointments in the county or district during the campaign.

The duty of Democrats of Pulaski is plain enough. You have a magnificent ticket to support. You have the true principles of republican government to defend. You should desire no victories based upon corrupt methods or false or fraudulent pretenses. This is not a battle of a day but for all future days.

CHEAP LANDS

For Homeseekers' and Colonies.

The country along the Cotton Belt Route in Southeast Missouri, Arkansas, Northwest Louisiana and Texas offers the greatest opportunities for homeseekers. Mild climate, good water, cheap building material, abundance of fuel, and soil that will often in a single season yield enough to pay for the ground. Land can be bought as cheap as \$10 an acre, prairie land at \$4 and \$5 per acre up, bottom land at \$8 and \$6 per acre up, improved or partly cleared land at \$10 and \$15 per acre up. Some fine propositions for colonies—tracts of 2,000 to 8,000 acres at \$4 to \$10 per acre—big money in this for a good organizer. Fruit and truck lands in the famous peach and tomato belt of Texas at \$10 to \$20 per acre up. Write us for information about cheap land, accurate dates, and literature descriptive of this great country and let us help you find a home that will cost you no more than the rent you pay every year.
